

Everything.
Except flammable.

We develop high-quality contract fabrics
for worlds of well-being with function and aesthetics.
With experience. Creativity. And innovation.

C. A. Delius & Sons

300
years

In 1722 Johann Caspar Delius founded a linen shop in Bielefeld. This was the first step in the history of the textile company DELIUS, which continues to this day.

248
employees

With 248 employees in Bielefeld, Jöllenbeck and Spenge, as well as in field service world-wide, we produce and sell our textiles.

60,1
mio. € sales

In 2019, we as a group of companies achieved sales of € 60.1 million.

properties.

Our competences

Development

Our designers develop our fabrics with the highest standards of quality, function and innovation.

Production

Our fabrics are produced in Bielefeld and by our trusted partners worldwide.

Testing

We test all fabrics for their functional properties in independent, accredited laboratories.

Consulting

We would be pleased to advise you individually on your project with regard to design, functionality and implementation.

Customer service

We attach great importance to good service. Uncomplicated, fast and reliable.

Why DELIUS?

Experience

We are experts in textile development for almost 300 years.

Holistic

We offer decorative and upholstery fabrics as well as wallcoverings for integrated room concepts in buildings.

Special development

We also develop individual print motifs and colour combinations together with you.

Delivery service

We will provide you with samples of all fabrics. Thanks to our extensive stock with coupon service, long delivery times are rare.

Our application areas

DELIUS develops high-quality fabrics for the contract market. To achieve this, we combine aesthetics with highly functional properties and support our customers worldwide with their excellent interior design.

Responsibility

Our sustainable actions are reflected by careful use of natural resources, social responsibility, and the economic success of the company.

- ✓ Our fabrics are therefore **ÖKO-TEX certified** and free of biocides.
- ✓ Since our fabrics are made of pure polyester, they are **100% recyclable**.
- ✓ With our DELITHERM fabrics heating costs can be saved and **CO₂ emissions can be reduced**.
- ✓ **Function matters.** In this project group we develop internal strategies for more efficiency within our company.

Quality assurance

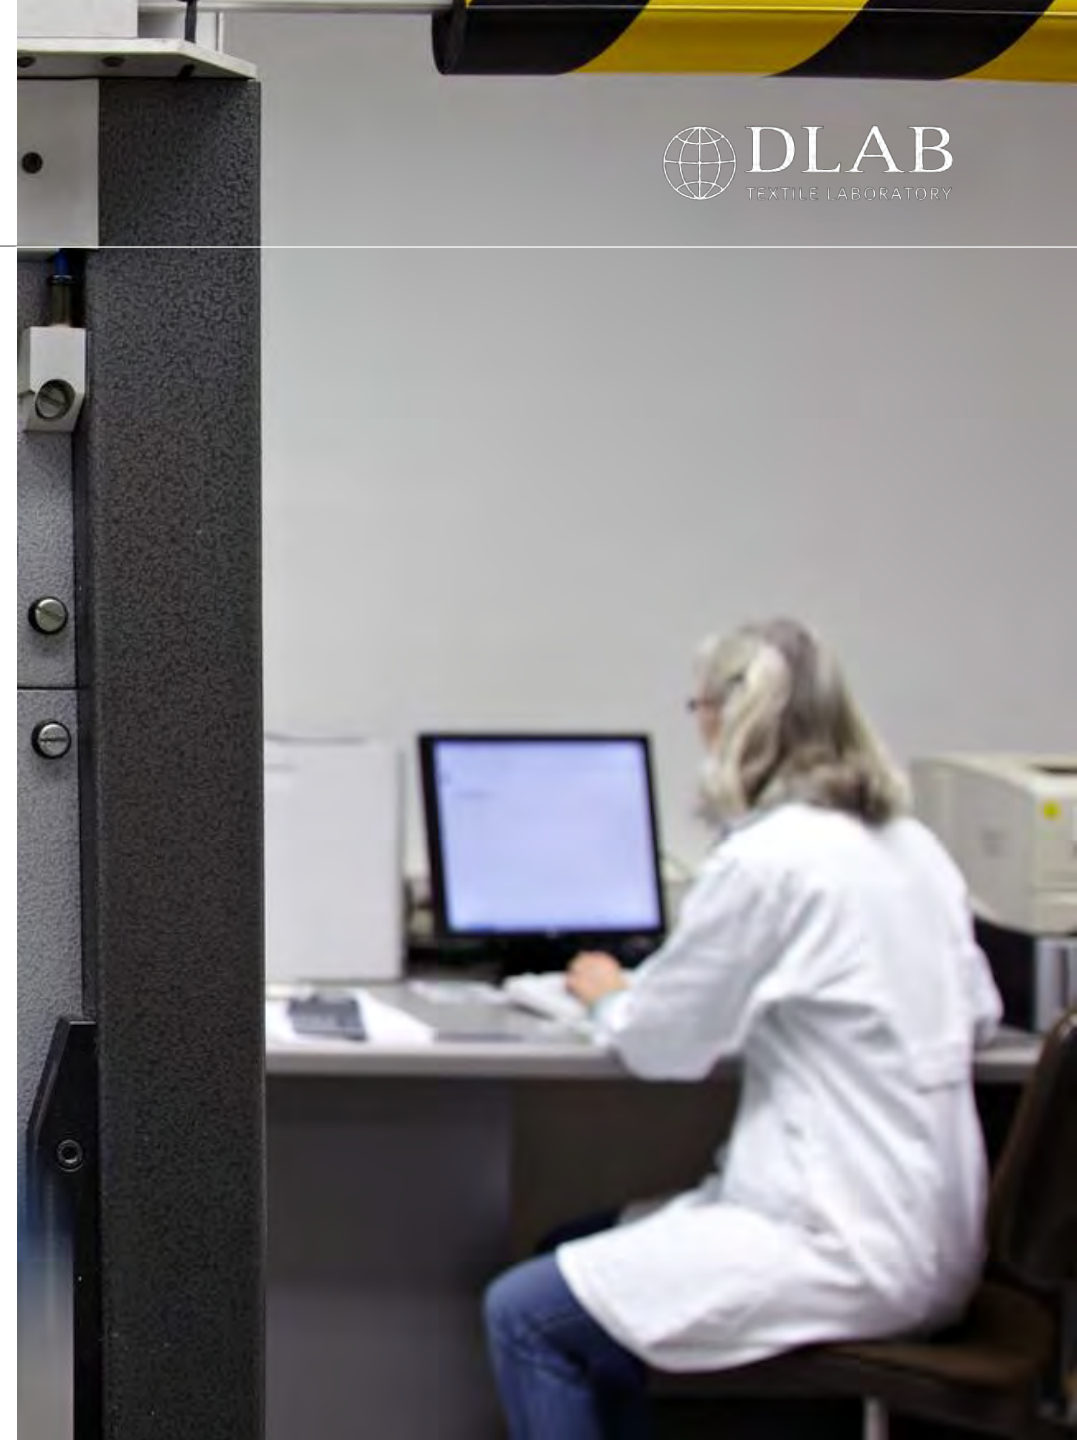

To ensure that our fabrics function 100%, we have them tested in independent, accredited laboratories. Depending on their intended application, they are put to the test in a selection of the disciplines listed here:

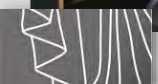

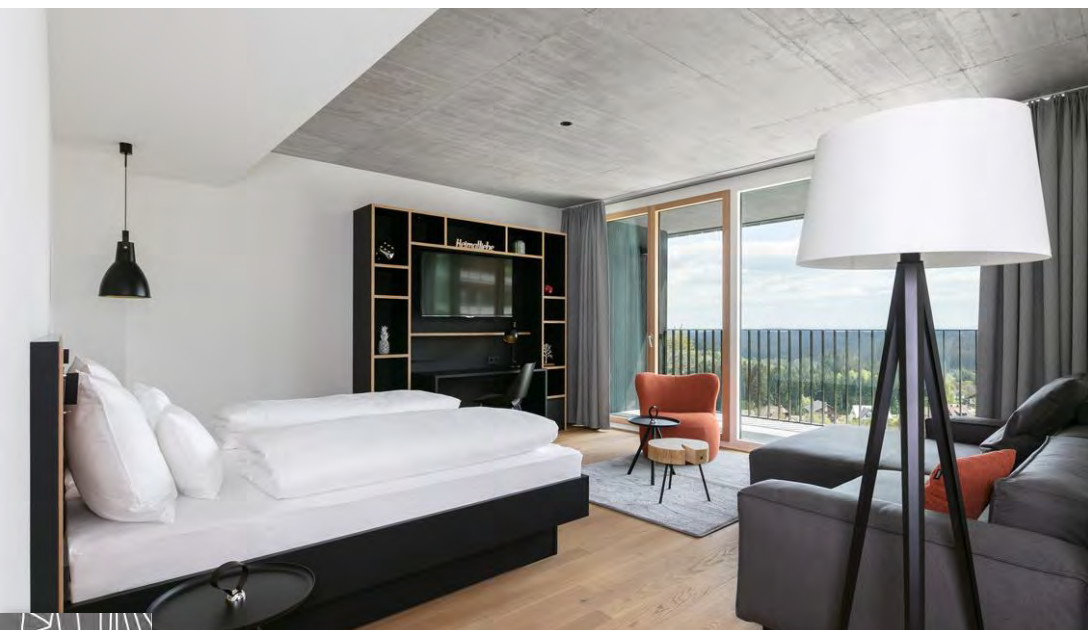

- ✓ Flame retardancy
- ✓ Abrasion resistance
- ✓ Lightfastness
- ✓ Water column
- ✓ Sea/chlorinated water fastness
- ✓ Water fastness
- ✓ Pilling
- ✓ Friction resistance
- ✓ Acoustic properties

Certificates

Depending on the country of use, the requirements for flame-retardant materials vary. For this reason, our textiles have to pass various tests in order to be suitable for international use. Our fabrics are subjected to the following tests:

EN 13773	M1	NFPA 701
DIN EN 4102/B1	DIN EN 1021 part 1	NFPA 260
IMO Res. A471 (XII)	DIN EN 1021 part 2	Cal TB 117
IMO Res. A652 (16)	BS 5867	MVSS 302
C1	BS 5852 Crib 5	1-M

HOTEL WORLDS

Textile solutions that stand up to anything.

We offer high-quality textile solutions for every area and furnishing style – from hotel suites and conference rooms to restaurants and bars. With our wide range of products, we can meet the requirements of holistic room concepts.

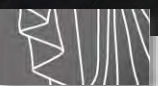

DELIFLAMM

Flame retardant fabrics

All our textiles are inherently flame retardant. This is ensured by yarns made of polyester FR, such as the branded yarn Trevira CS, in which the flame retardancy is permanently anchored.

DIMOUT/ BLACKOUT

DECORATIVE FABRICS

for curtains and sheers

Our range of decorative fabrics is broad. In addition to the extensive colour palettes, almost every colour is also available as a special colour.

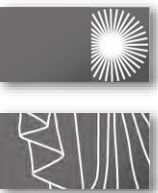

- ✓ woven and printed curtains
- ✓ Blackout fabrics
- ✓ transparent and semi-transparent sheers
- ✓ Velvets
- ✓ elaborate jacquards
- ✓ flowing satins

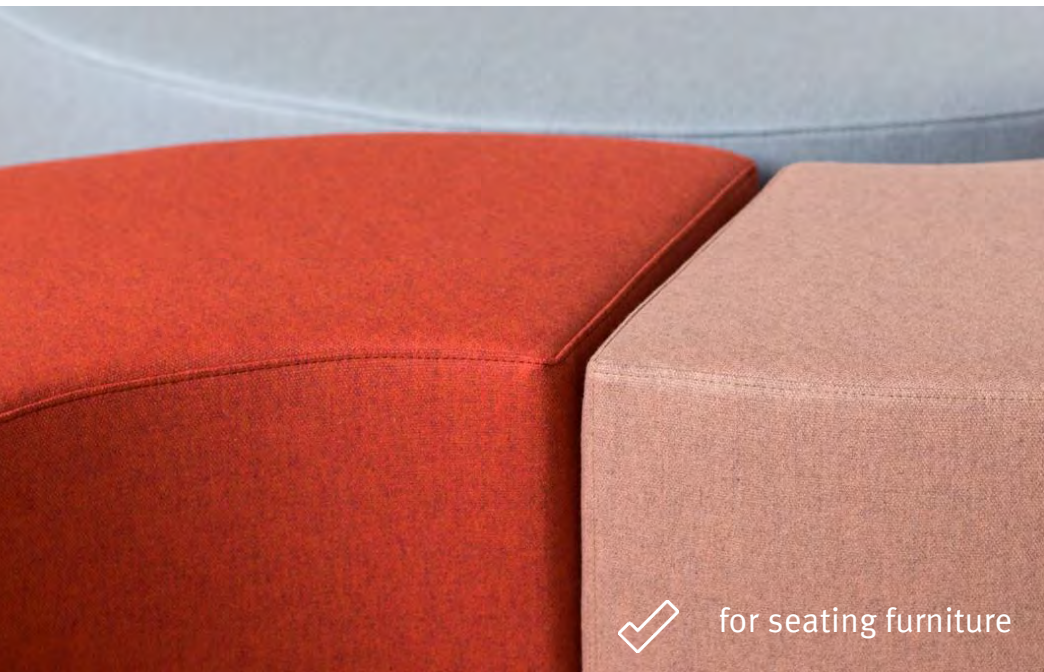

DIMOUT/ BLACKOUT

Functional darkening fabrics

Our DIMOUT curtains reduce the light transmission in a room to up to 1% and absorb nearly every ray of light at night. Our DELIBLACK and DELINIGHT curtains are blackouts that are even completely impenetrable to light.

- ✓ DIMOUT with up to 99% darkening
- ✓ BLACKOUT with 100% darkening
- ✓ Extensive collection

 for seating furniture for wall coverings for room dividers for headboards

UPHOLSTERY FABRICS

for Hotels

DELIUS offers a wide range of upholstery fabrics for a variety of design concepts – from the classic conference hotel to the five-star luxury hotel. They meet the requirements in terms of function, design and durability.

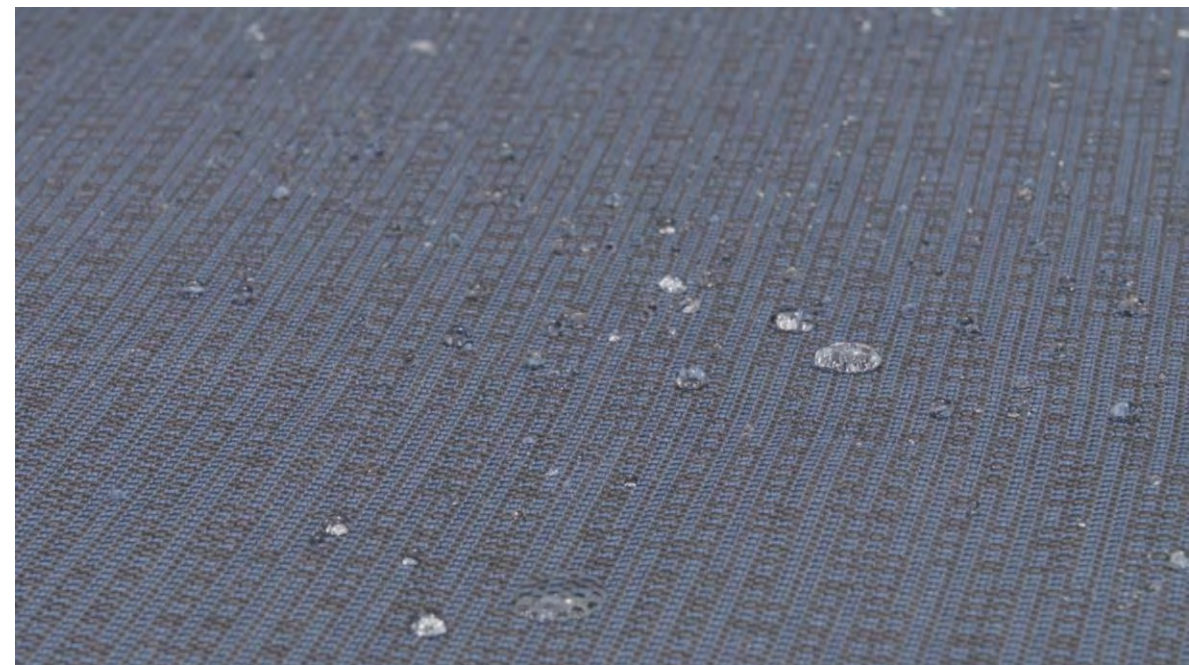

The applications of the upholstery fabrics range anywhere from seating furniture to wall coverings, room dividers and headboards.

DELIGARD

Moisture and soil-resistant fabrics

Our upholstery fabrics with DELIGARD technology are particularly resistant to moisture and dirt and give bacteria no chance. This makes them durable and easy-care upholstery fabrics. With a variety of designs, they offer extensive application possibilities in hotels and restaurants.

- ✓ moisture resistant
- ✓ soil-resistant
- ✓ antibacterial
- ✓ breathable

ACOUSTIC

Sound absorbing materials

Our acoustic materials absorb sound and thus optimise the room acoustics. Whether at work, in a restaurant, hotel room or theatre - good acoustics promote well-being, communication and performance.

- ✓ Drape/ Sheer
- ✓ Room divider
- ✓ Wall/ceiling covering
- ✓ Panels
- ✓ Furnishing fabrics

✓ chlorine and sea water law

✓ lightfast

✓ fast-drying

✓ Polyolefinic FR Fibre

✓ flame retardant

DELIMAR

Indoor and outdoor fabrics

DELIMAR fabrics captivate with their unique woven structures and vibrant play of colours. Essential outdoor properties are integrated in these textiles. For indoor use, such as the hotel lobby or restaurants, the fabrics are additionally permanently flame retardant.

-  Curtain and sheers
-  Lining
-  Roman blinds
-  Panel curtain

DELITHERM®

Energy-efficient fabrics

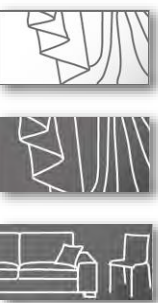

DELITHERM® fabrics are energy savers in every season. In summer they reduce the solar radiation at the window and prevent rooms from heating up extremely. In winter DELITHERM® also keeps the warmth in the room. Heating costs can be saved up to 15 %. Thus, they are our textile contribution to the reduction of CO₂ emissions.

ACTIVE DESIGN

Project related developments

Whether printed or woven – we will be happy to implement your design ideas with our development expertise. We realize your wishes promptly and at competitive prices. Our textile experts support you in every phase of your project.

- ✓ wash-resistant prints
- ✓ individual motives and colours
- ✓ fabric construction as required

DELIWALL

High quality contract wallcovering

The wallcoverings in our range are perfectly matched with our contract fabrics. The collection offers a variety of structures and colours – from subtle to expressive. Due to their construction they are extremely robust and provide an exquisite ambience.

- ✓ scrub resistant & durable
- ✓ easy to clean
- ✓ 100% recyclable
